

PSL 250 – INTRODUCTORY PHYSIOLOGY COURSE SYLLABUS – SPRING 2022

Department of Physiology
College of Natural Science
MICHIGAN STATE UNIVERSITY

Safety Considerations Due to COVID-19

Due to an abundance of caution considering SARS-CoV-2, the Omicron variant, and the large enrollment nature of this course, all of our course activities will be conducted online and remotely via a combination of D2L and Zoom. The University is requiring all MSU students, faculty, and staff to be vaccinated against COVID-19 and wear appropriate face coverings indoors. Learn more [here](#).

Instructor Information

Professor: Dr. Martin D. Spranger, Ph.D. —he/him—

Teaching portfolio: <http://mds.msu.domains> (see for information about me)

Office location: 2201-H Biomedical & Physical Sciences Bldg. (BPS)

Office phone: (517) 884-5044 (preferably during office hours)

Office hours: TBD

Email address: mds@msu.edu (please do not email me through D2L)

Teaching Assistant (TA) Information

Lead TA: Haley Guffey —she/her—

Email address: guffeyha@msu.edu

Other roles: Flipgrid Manager

TA: Gabrielle Green —she/her—

Email address: greenga5@msu.edu

Other roles: Top Hat Manager

Learning Assistant (LA) Information

There will be several LAs working with me this semester. The LAs are former students that 4.0'd this course and have a strong desire to pay-it-forward and help you make the most of your learning experience in this course. The LAs will be running Content Review Sessions (**CRS**, see pg. 9) and Study Skills Help Sessions (**SSHHS**, see pg. 9).

Tutor Information

It is my professional opinion, from over 17 years of teaching experience, that a tutor is not a necessary resource to succeed in this course. However, if you are committed to obtaining a tutor, please contact me and I will try to connect you with a former student that has 4.0'd this course. Please note that I am not required to find you a tutor, tutors are typically for hire, and that and I am not party to any contractual agreement that you may set up with a tutor.

Student Information

There are approximately 400 students in this course. Virtually every major is represented. As the student/professor ratio is ~400:1, it is impossible for me to reach out and develop a rapport with each and every one of you. However, you can easily develop a rapport with me, as there is only one of me. So, ask questions during office hours, email me, and be active on Discord (see pg. 12).

Importance of Diversity, Equity, Inclusion, and Professionalism

Each and every one of you belong here. You did not arrive here by mistake, but rather you were selected based on your qualifications, qualities, and talents. And therefore, each and every one of you also has an equal opportunity for success in this course, and I will offer you a multitude of resources to help you realize this success.

MSU welcomes a full spectrum of experiences, viewpoints, and intellectual approaches because they enrich the conversation, even as they challenge us to think differently and grow. However, we believe that expressions and actions that demean individuals or groups compromise the environment for intellectual growth and undermine the social fabric on which the community is based. To encourage a productive learning experience for all, please practice professionalism, accountability, and transparency with myself and your fellow classmates.

Lines of Communication

- ✓ Always feel free to contact me (**your prof**) with any questions you have
- ✓ Important course announcements will be posted on **D2L*** (see pg. 13)
- ✓ Contact your **TAs or LAs** for questions about content and/or study skills
- ✓ Communicate/collaborate with your peers by posting/answering questions on **Discord****

* Announcements will be posted under "What's New?" and sent to your MSU email via your D2L account. Be sure to check D2L daily for any potential Important updates. It is your responsibility to be aware of any important announcements made on D2L.

** Questions about course content should first be posted on Discord.

Posting on Discord will allow other students to benefit from your questions and the answers to those questions. Ideally, your colleagues will try to answer your questions as well. The TAs, LAs, and I will monitor the

discussions on Discord and chime in as need be. The last time we will reliably check Discord before an exam will be the day before the exam at 5:00 pm (However, it is very likely we will be available beyond that deadline). Please be professional and respectful on Discord.

Course Information

Section/Credits: 001/4

Course Description: This is an introductory, yet intensive course that thoroughly covers the fundamental mechanisms and processes of human physiology. The underlying physiology of the entire human body will be covered in this course. Aside from discussing the systems of the human body by exploring their functionality at all levels of organization (e.g., molecular, cellular, tissue and organ), the overlying theme of this course will be *systems integration*. We will begin by discussing how individual organ systems work as stand-alone, functional units and, as the semester progresses, we will integrate our understanding of these systems so to build a mental picture of the organism level of organization (i.e., you).

Modality: Online/synchronous. Whether this is your first experience with an online course or not, please consider the following advice. I will be giving live, Zoom Webinar lectures during our class periods (i.e., synchronous instruction). All course content can be found in our D2L course.

Location: This course is hosted online via Zoom Webinar (in the event that the University returns to in-person learning, our classes will be held Tuesdays and Thursdays from 12:40 PM – 2:30 PM in B115 Wells). All course content can be found in our D2L course. My office hours (see pg. 1), CRSs (see pg. 9), and SSHSs (see pg. 9) will be held via Zoom. Course lectures will be delivered via Zoom Webinar (see below).

Course Zoom Link:

https://msu.zoom.us/webinar/register/WN_NgJ0hKyDRs2CGfdjVndIZw

Meeting ID: 912 2983 5342

Passcode: 846093

Course Website: www.d2l.msu.edu (see pg. 13 for details)

Required Materials:

- 1) *Anatomy & Physiology*, by J. Gordon Betts, et al.
An online (free) book by OpenStax (ISBN 1947172042) or in print (ISBN 1938168135). See: <https://openstax.org/details/anatomy-and-physiology>
- 2) Top Hat subscription (\$36 fee) (for examinations — see the **Top Hat Test & Proctorio** document on D2L for details)
- 3) Technical Requirements: You must have the following to successfully access the online materials:
 - A computer ≤ 3 years old with speakers or headphones
 - A high-speed internet connection*
 - A webcam, microphone and speakers.
 - Microsoft Office (Word and PowerPoint) or freeware equivalents
 - Google Chrome web browser (must be Google Chrome)

* Important note: when streaming the lecture videos, a high-speed connection of at least 6 Mbps is recommended to avoid lag and to

maintain streaming quality (for reference, Netflix recommends 5 Mbps for HD streaming).

Recommended Resources:

- 1) Wikibooks - Human Physiology online book
(https://en.wikibooks.org/wiki/Human_Physiology)
- 2) Khan Academy - Biology & Physiology lessons and practice
(<https://www.khanacademy.org/science>)
- 3) CrashCourse - Anatomy & Physiology YouTube videos
(https://www.youtube.com/playlist?list=PL8dPuuaLjXtOAKed_MxxWBNaPno5h3Zs8)
- 4) GetBodySmart - Anatomy & Physiology animations and quizzes
(<https://www.getbodysmart.com>)

Professor's Mission

My primary mission is to provide you a quality education. You will be provided an educational opportunity that can benefit you, and the society in which you live, regardless of your career path. I will encourage you to develop strong study skills. I will constantly challenge you to think on a higher level. **I will expect your best.** And, most importantly, I hope to inspire you and get you excited about physiology!

If you accept my challenge, I offer you a guarantee that is inherent in my design of this course. If you perform very well in this course, you will move forward with an exceptional and enduring working-knowledge of human physiology. You will have also acquired the analytical thinking, reasoning and study skills required to succeed at the highest level in the next phase of your academic studies. In other words, you will leave this class a legitimate academic – a student with all the tools necessary to achieve whatever academic goals you set your mind to. Please go all in and join me on this mission. It is a powerful and enlightening adventure!

Learning Outcomes

If you perform well in this course, you will not only possess a solid understanding of human physiology, you will also be fully capable of...

- 1) Explaining the molecular and cellular mechanisms that underlie the normal physiological processes of all human organ systems.
- 2) Understanding the pathology of disease states without formal coursework in pathophysiology. You learned many disease states in this course, and with your strong command of normal physiology, you have the capacity to evaluate diseases and propose mechanistic bases for the pathology. Moreover, with your understanding of molecular and cellular mechanisms, you can scientifically rationalize the drug therapies employed to treat these conditions.

- 3) Confidently communicating, both written and verbally, with proper terminology and pronunciation, all aspects of normal human physiology with your peers, your physician, your pharmacist, and your future professors.
- 4) Employing the study skills and work ethic you developed in this course to perform well in all of your courses throughout your entire academic career.
- 5) Serving as a learning assistant (LA) in this course in the future (contact me about this opportunity if you 4-pt.), excelling on biology/physiology sections on pre-health, professional school exams (e.g., PCAT, MCAT, etc.), and pursuing a major in physiology!

Course Examinations

There will be **5** unit exams (see below) as scheduled in the **Lecture Outline** (see pg. 15). Each exam will be worth 60 points and consist of 60 multiple-choice and true/false type questions. The exams are not cumulative in the strict sense of the word. However, important concepts from previous exams, that tie into concepts in subsequent lectures, will naturally find their way into subsequent exams. I will emphasize these important concepts during lecture throughout the semester – so stay tuned! Unit 5 Exam is the Final Exam but is not a cumulative exam. You will have 1 hour and 30 minutes to complete Unit (1-4) Exams. You will have 2 hours to complete the Final Exam (Unit 5 Exam). During the Final Exam period, you will also be assigned 20 bonus cumulative exam questions (CEQs). The CEQs will consist of multiple-choice questions and will be worth a potential 20 points of extra credit.

Performing well on the Final Exam can help boost your final course grade. I will automatically replace the lowest score of your first 4 exams with the average score of all 5 of your exams **IF** your Final Exam score is greater than the average score of your first 4 exam scores: **(EX 5 > (EX 1 + EX 2 + EX 3 + EX 4)/4)**.

Exam Logistics: Your examinations will be administered to you online, remotely, and securely via your Top Hat application utilizing Top Hat Test & Proctorio (see the **Top Hat Test & Proctorio** document posted on D2L for details and additional exam logistics). As with typical in-person exams, you are to take your exams on your own, without help from any notes, books, internet sources, or other human beings (see the **Academic Integrity Policy**, see pg. 11). With this online format, no questions can be asked/answered during the exams. Exams will be scored in Top Hat and scores will be posted in the D2L Gradebook (~48 hours after each exam). Exams will not be posted online for review. If you would like to appeal a question, or simply see mistakes that you made, please contact your TA Gabby (see pg. 1) by email and she will set up a meeting with you. Any exam concern must be resolved within one week following the posting of your exam score on D2L to be considered for a potential grade correction.

Exam Dates/Times:

- ✓ Unit 1 Exam - Tuesday, February 1 (12:40 PM – 2:10 PM)
- ✓ Unit 2 Exam - Tuesday, February 22 (12:40 PM – 2:10 PM)
- ✓ Unit 3 Exam - Tuesday, March 22 (12:40 PM – 2:10 PM)
- ✓ Unit 4 Exam - Tuesday, April 12 (12:40 PM – 2:10 PM)
- ✓ Unit 5 Exam – Wednesday, May 4 (10:00 AM – 12:00 PM)

Final Exam Schedule: Wednesday, May 4 (10:00 AM – 12:00 PM)

Final Exam Conflict Policy: Per University policy, no student is required to take 3 final exams scheduled on the same calendar day or take 2 final exams scheduled at the same time. If a Final Exam conflict arises as the result of one of your courses using a Common Final Exam, your course with the Common Final Exam is responsible for scheduling you an alternate Final Exam to resolve the conflict.

(<https://reg.msu.edu/ROInfo/Calendar/FinalExam.aspx>). If you have a Final Exam scheduling issue, your first step is to contact your college representative in the Office of Student Affairs for assistance in arranging an alternate Final Exam. Any potential Final Exam concern must be resolved by **01/17/22**.

Make-Up Exam Policy: No make-up exams will be offered except for University excused absences (i.e., not a cold, or work conflict, etc.), such as a health emergency causing hospitalization or death of an immediate family member (see the University's **Grief Absence Policy**, see pg. 11). Documentation of a health emergency must be provided by a physician, on their letterhead, and with their signature. Should you become unable to attend class for an extended period of time due to a serious, documented health or personal issue, please contact the college representative in the Office of Student Affairs in your college for guidance. Following this discussion, please contact me to discuss potential accommodations.

Top Hat (Quiz, Participation, and Attendance Points)

Top Hat (TH) is a classroom response system that I will employ to help keep you “on your toes” and engaged during lecture. **Quiz (Q), Participation (P) and Attendance (A) Points** offered via TH will be worth a combined 12.5% of your overall course grade (**Q** - 40% of the 12.5%; **P** - 40% of the 12.5%; **A** - 20% of the 12.5%). I will post the numerical points you earn for **Q**, **P**, and **A** on D2L following each examination period. The above percentages will be calculated at the end of the semester.

☞ **Quizzes** will be held at the beginning of each lecture period and will consist of approximately 5 multiple-choice and true/false questions on material from the previous week. Regular attendance and studying will be required to perform well on the quizzes.

* Each quiz question will be worth 1.0 point for correctness.

* In case of unforeseen circumstances, I will automatically drop your two lowest quiz scores.

☞ **Participation** questions will consist of material from the current lecture. Several of these questions will be asked during each lecture. These will be multiple-choice and true/false questions designed to probe your mind, help guide your thought process as I lecture, and to add impact and emphasis. Being in class and participating is all that is required to get full credit.

* Each participation question will be worth 1.0 point for participation.

- ☞ **Attendance** will be taken at random utilizing TH. I reserve the right to take attendance the minute class begins, the minute before it ends, and anytime in between.
 - * For each instance I take attendance you will receive 1.0 point.
 - * **In addition, if you miss attendance on any given day, you will be exempt from all quiz and participation points offered for that day.**

No make-up opportunities will be offered, under any circumstances, for quiz, participation, or attendance points. In other words, please do not contact me with an excuse why you missed a quiz or an opportunity for participation or attendance points (keep in mind that I automatically drop your lowest two quiz scores). For TH technical details see pg. 13).

Course Grading

400 points are available to be earned: 300 points for exams, 50 points for Flipgrid, and 50 points for Top Hat (with a potential 20 bonus points for CEQs). I may or may not adjust individual exam scores. I will not adjust the overall course scores. All grades will be posted in the D2L Gradebook. Please note that I only use the D2L Gradebook to post your grades, not for grade calculations. If any grade calculations are made in the D2L Gradebook, please ignore them. Grade calculations will only be made by myself, on my personal computer. Course grades will be determined from total point accumulation at the end of the semester. To calculate your grade at any point during the semester, see the **How to Calculate Your Grade** document posted on D2L. The following tables (below) can be used to calculate your grade at any point during the semester:

Grading Table	
Unit Exam	Points
1	/60
2	/60
3	/60
4	/60
5 (Final)	/60
Top Hat	/50
Flipgrid	/50
CEQs (Bonus)	/20
Total	/400

Grading Scale	
% Ranges	Grade
90-100	4.0
85-89.99	3.5
80-84.99	3.0
75-79.99	2.5
70-74.99	2.0
65-69.99	1.5
60-64.99	1.0
≤ 59.99	0.0

Disputes/Challenges

Once your grades for any assessment (e.g., quiz, exam, etc.) are posted in the D2L Gradebook, you will have one week from that day to challenge them. Failure to challenge within this period indicates your willingness to accept your grades as posted in the D2L Gradebook.

Content Review Sessions (CRS)

CRS are a place for the review of course material. Haley will run the primary CRS for this course. These will be biweekly sessions delivered via Zoom. There will also be several LAs holding additional CRS throughout the week via Zoom. Depending on the state of the COVID-19 pandemic and the university protocols, some of the CRSs may be moved in-person to various locations on campus. Your TA and LAs will announce details about their sessions on D2L, and a spreadsheet of the dates/times will be posted on D2L within the first week of class. CRS are optional but encouraged.

Study Skills Help Sessions (SSHS)

SSHS are a place to learn and develop effective study skills for this course. While studying *hard* is important, so too is studying *smart*. In this class, you will have to do *both* to earn a 4.0. One of the LAs, Ryan Zimmer, will run the primary SSHS for this course. These will be biweekly sessions delivered via Zoom. There will also be several LAs holding additional SSHS throughout the week via Zoom. Depending on the state of the COVID-19 pandemic and the university protocols, some of the SSHSs may be moved in-person to various locations on campus. Your TA and LAs will announce details about their sessions on D2L, and a spreadsheet of the dates/times will be posted on D2L within the first week of class. SSHS are optional but strongly encouraged.

General Policies

- ✓ **I will not tolerate any talking in class while I am lecturing.** This is very disrespectful to myself and your fellow classmates. If I can hear you, so can the people around you. MSU policy prohibits any behavior that disrupts class (<http://splife.studentlife.msu.edu/regulations/general-student-regulations>). You will be asked to leave the lecture hall on the second occurrence you disrupt class, and you will be unable to return to lecture until you schedule a personal meeting with me. If someone around you is chronically disturbing you, please let me know in private.
- ✓ I will utilize all the class time allotted for this semester. Coming late to class and leaving early is very distracting to myself and your fellow classmates. If you know you are going to arrive late or leave early, please sit in the back of the lecture hall. Whenever you enter or exit the lecture hall, please use the back doors, and please be quiet and courteous.
- ✓ I have zero-tolerance for cheating. If you are caught cheating, you will get a zero for that exam (under this circumstance, this zero cannot be replaced by the average of your five exam scores). If I take your exam from you, I have already witnessed you cheating on several independent occasions and have enough evidence/witness support to seek

university disciplinary action. You can contact me via email later to schedule a meeting with me in person to discuss the situation.

- ✓ When emailing me, please address me, write without utilizing texting acronyms and shorthand, use spellcheck, and always sign with your name. These simple efforts go a long way, regardless of who the recipient of your email is. Please do not email through D2L.
- ✓ I am happy to write a letter of recommendation for any student that earns a 4.0 in my course AND demonstrates strong personal characteristics. I can only determine the latter if you develop a rapport with me. Building strong, professional rappings are key to becoming a professional.

Academic Integrity Policy

All students are held to the standard set by MSU's Policy on Integrity of Scholarship and Grades (<https://reg.msu.edu/academicprograms/Print.aspx?Section=534>). Therefore, you are expected to complete all course assignments, including quizzes and exams, without assistance from any source. Students who violate MSU's academic integrity rules may receive a penalty grade, including a failing grade on the assignment or in the course. Please honor and strictly adhere to The Spartan Code of Honor:

“As a Spartan, I will strive to uphold values of the highest ethical standard. I will practice honesty in my work, foster honesty in my peers, and take pride in knowing that honor is worth more than grades. I will carry these values beyond my time as a student at Michigan State University, continuing the endeavor to build personal integrity in all that I do.”

Add/Drop Policy

After the fifth day of the semester, students may add courses using the enrollment system. Any add after this period must be initiated with the department offering the course. Final approval rests with the associate dean of the student's college. Students may drop courses using the enrollment system through the middle of the term of instruction. If you are considering dropping a course after this time, refer to the Office of the Registrar (www.reg.msu.edu/ROInfo/EnrReg/Lateadds.aspx) for important dates and deadlines. If you are passing this course, or there is no basis for me to assign a grade at the time of your official withdrawal, a “W” grade will be assigned. If you are failing at the time of the withdrawal and the deadline for an official withdrawal has passed, you will be assigned a grade of **0.0**.

Grief Absence Policy

MSU is committed to ensuring that the bereavement process of a student who loses a family member during a semester does not put the student at an academic disadvantage in their classes. Students should contact the college representative in the Office of Student Affairs in their college and file a Grief Absence Request Form (<https://reg.msu.edu/StuForms/Stuinfo/GriefAbsenceForm.aspx>) no later than one week

after knowledge of the circumstance. After submission of this form, the college representative and the student will determine the expected period of absence. Once I am informed of the grief absence request by the college, I will work with the student to make the appropriate accommodations.

Special Considerations for Individuals with Disabilities

If you have a documented disability, contact the Resource Center for Persons with Disabilities (RCPD) (517-884-7273 or www.rcpd.msu.edu) and meet with a specialist to request a special accommodation before classes start. Once you have verification from RCPD (in the form of a Verified Individual Services Accommodation – VISA), contact me at the start of the term and/or two weeks prior to the accommodation.

Special Accommodations for COVID-19

If you have been sick with COVID-19 symptoms, have tested positive for COVID-19, or have been potentially exposed to someone with COVID-19, please follow CDC guidance to self-isolate or stay home (<https://www.cdc.gov/coronavirus/2019-ncov/your-health/index.html> – If You Are Sick -> When To Quarantine). I will make accommodations for any student who must miss class due to COVID-19 illness or self-isolation so that it will not harm their performance or put them at a disadvantage in the class.

Zoom Information

For at least the first three weeks of the semester, I will be lecture via Zoom Webinar (see pg. 4). The TAs and LAs will also utilize MSU Zoom (and/or in-person) sessions to interact with you during CRS and SSHS. Only authenticated users will be able to attend the Zoom sessions. That is, you will need to sign in with your MSU credentials to join and then enter the specific passcode. We will announce details about our Zoom sessions on D2L. Please be professional and respectful when attending Zoom sessions. Once all of these sessions are scheduled, a spreadsheet with all of the dates/times/Zoom links will be posted on D2L within the first week of class.

Discord Information

I have created a Discord server for this course (<https://discord.gg/KwX55sTnVn>). Ask questions of your peers and, more importantly, answer questions posted by your peers. When asking questions, provide some of your own understanding about the concept so that someone can help you precisely where you are stuck. Feel free to share study tips, notes, cool websites you have found, etc. with your classmates here. However, do not post any screen shots of course material here, such as quiz questions you may need help with. Please note that Discord is for professional use only. In other words, please do not treat this as a personal social media site. Our Discord site is solely for human physiology discussion to aid in your learning experience in PSL 250. Please be professional and respectful when on Discord. Failure to do so may result in your removal from the platform.

D2L Information

D2L will serve as our course website and can be found @ d2l.msu.edu. Once there, you can log in using your MSU NetID and password. After logging in, you will see a link to the specific webpage for this course. If you do not see this link, search for the course and then pin it to your main page, or check with the Office of the Registrar to make sure that you are officially enrolled in the course and D2L. Please note that I do not have the administrative clearance to enroll students in my D2L course. The Office of the Registrar controls your enrollment in the course and D2L.

All course materials (e.g., syllabus, PowerPoint lecture slides, PowerPoint lecture recordings) will be posted on D2L.

Intellectual Property Policy

All course materials presented to students are the copyrighted property of the course instructor. Students are prohibited from sharing this information outside of this course learning community. Any student violating this policy may face academic disciplinary sanctions.

Technical Assistance

D2L or Zoom:

- ✓ Call MSU Distance Learning (517-355-2345)
- ✓ Call the MSU IT Service Desk (517-432-6200 or 844-678-6200)
- ✓ Visit the Desire2Learn Help Site (<http://help.d2l.msu.edu>)

Top Hat:

- ✓ Call Top Hat Support (1-888-663-5491)
- ✓ Live chat with Top Hat support (<https://support.tophat.com/s/contact-main>)
- ✓ Email Top Hat Support (support@tophat.com)

Flipgrid:

- ✓ Contact Flipgrid Support
(<https://flipgridsupport.helpshift.com/a/flipgrid/?p=all&contact=1>)

Discord:

- ✓ Visit the Discord Help Site (<https://support.discord.com/hc/en-us>)

Disclaimer

This course syllabus is subject to modification at the discretion of the instructor without prior notice to the student. Lecture topics and/or scheduled times may be changed to accommodate class progress. Students must keep regular attendance and take note of any potential changes. Any specific issue not covered by this syllabus, and disputes that cannot be resolved following the policies/guidelines present in this syllabus, will be resolved in accordance with MSU policies.

Prof's Advice

- 1) Want it!
- 2) Take this class seriously starting yesterday.
- 3) Be willing to make sacrifices.
- 4) Attend CRS, participate and ask questions. Get engaged!
- 5) Be proactive. Attend a SSHS before you do anything else! If you need help, contact me ASAP. I am confident that I *can* help you, I *want* to help you!
- 6) Diligently and consistently apply effective study skills. Understand, rather than memorize. Study *hard* and study *smart*.

Lecture Outline

Day	Date	Topic	Chapter/Reading
T	01/11	Introduction to Physiology	1 (1.1 – 1.5), 26 (26.1, 26.4)
TH	01/13	Molecular Level of Organization	2 (2.1 – 2.5)
T	01/18	Molecular Level of Organization	
TH	01/20	Cellular & Tissue Levels of Organization	3 (3.1 – 3.2), 4 (4.1 – 4.2)
T	01/25	Cellular & Tissue Levels of Organization	
TH	01/27	Review (time permitting)	
T	02/01	Unit 1 Exam	
TH	02/03	Nervous System (Cells)	12 (12.1 – 12.5)
T	02/08	Nervous System (Cells)	
TH	02/10	Peripheral Nervous System (Afferent)	13 (13.4), 14 (14.1), 16 (16.3)
T	02/15	Peripheral Nervous System (Afferent)	
TH	02/17	Nervous System (CNS)	13 (13.2), 12 (12.1), 16 (16.2)
T	02/22	Unit 2 Exam	
TH	02/24	Integumentary System	5 (5.1 – 5.4)
T	03/01	Peripheral Nervous System (Efferent)	15 (15.1 – 15.4), 14 (14.3)
TH	03/03	Peripheral Nervous System (Efferent)	
M-F	03/07-03/11	Spring Break (no classes)	
T	03/15	Muscle Physiology	10 (10.1 – 10.9), 11 (11.1)
TH	03/17	Muscle Physiology	
T	03/22	Unit 3 Exam	
TH	03/24	Cardiovascular System (Heart/Vasculature)	19 (19.1 – 19.4), 20 (20.1 – 20.6)
T	03/29	Cardiovascular System (Heart/Vasculature)	
TH	03/31	Cardiovascular System (Blood)	18 (18.1 – 18.6)
T	04/05	Respiratory Physiology	22 (22.1 – 22.6), 26 (26.5)

TH	04/07	Respiratory Physiology	
T	04/12	Unit 4 Exam	
TH	04/14	Endocrine System	17 (17.1 - 17.11), 6 (6.3 - 6.4; 6.6)
T	04/19	Endocrine System	
TH	04/21	Digestive System	23 (23.1 - 23.7)
T	04/26	Renal Physiology	25 (25.1 - 25.10)
TH	04/28	Renal Physiology	
W	05/04	Unit 5 Exam (Final Exam) (see pg. 6 for time/location)	

FAQs

Q1. How do I succeed in this course?

A1. Watch the Study Skills video posted on D2L and develop a solid study strategy that involves some variation of the following:

Q2. What information will be covered on the exams?

A2. I will only source information presented during lecture.

Q3. Is the Final Exam a cumulative exam?

A3. No. The Final Exam is just Unit 5 Exam. However, there will be 20 cumulative exam questions (CEQs) assigned with this exam that are required.

Q4. Can I drop my lowest exam score?

A4. No. I do not have a dropped exam policy. However, I will automatically replace the lowest score of your first 4 exams with the average score of all 5 of your exams **IF** your Final Exam score is greater than the average score of your first 4 exam scores: **(EX 5 > (EX 1 + EX 2 + EX 3 + EX 4)/4)**.

Q5. Will I get a copy of my exam back to review?

A5. No. Exams will not be posted online for review. If you would like to appeal a question, or simply see the mistakes that you made, please contact my TA and they will set up a meeting with you. Any exam concern must be resolved prior to the date of the following exam to be considered for a potential grade correction.

Q6. Can I make-up an exam if I miss it?

A6. Make-up exams are only offered for University excused absences such as hospitalization or death of an immediate family member.

Q7. What do I do if I get an email that I am not properly enrolled in TH?

A7. Follow these instructions to correct this:

When registering, TH asks for your "student ID." Please enter Your net ID, not your APID. Your net ID is merely your MSU email minus the "@msu.edu." For example, my MSU email is

mds@msu.edu. Therefore, my net ID is mds. Therefore, my TH “student ID” is mds.

Q8. If I end up with an 89.99% in the course, will my grade be rounded-up to a 90%?

A8. No. I may or may not adjust individual lecture exam scores, but I will not adjust overall course scores.

Q9. Can I do a project/paper to improve my grade?

A9. No. Sorry.

Q10. How soon will my exam scores be posted?

A10. Usually within 24-48 hours.

Q11. Do I have to print out the PPT lecture slides?

A11. No. However, I encourage that you print them out and bring them to lecture to ease the note-taking process.

Q12. Does anyone ever get a 4.0 in this course?

A12. Yes, plenty. Approximately 20% of PSL 250 students earn 4.0s.

Q13. If I miss a class, will I be excused for the Top Hat points that I missed?

A9. No. No make-up opportunities will be offered, under any circumstances, for quiz, participation, or attendance points (in other words, please do not contact me with an excuse why you missed a quiz or an opportunity for participation or attendance points). Keep in mind that I automatically drop your lowest two quiz scores.
